ADVANTAGES OF FOAM

Contact time maximizes chemistry's effectiveness

Visual marker for equipment operator

Expansion rates reduce water and chemical usage

Reduces labor costs

Central Foam Unit

SPECIFICATIONS

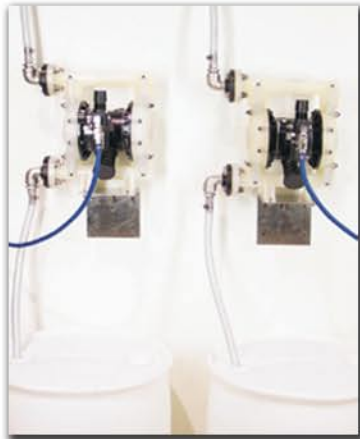

50 feet of foam hose

30 gallons of foam per minute

Stainless steel wand assembly

Up to 25 feet of foam distance

5 to 10 cfm at 40 to 80 psi

The Central Foam System is ideal for facilities that want to use the wall units, but don't want to have a separate mixed chemical container for each unit. This system needs only one mixed solution tank. Up to 15 Foam Stations can be run off one pump. As an option, a sanitizing system can also be run with the foam system through a separate line with a separate pump.
