

Single Transfer Systems

All single transfer systems are wall mounted systems. Simply specify the pump seal type and operating type needed using the codes listed below.

EXAMPLE: For a Flo-jet Viton pump with manual air button operation the order would be as follows:
CT2A5

PUMP SEAL TYPE
 Flo-jet Santoprene - 5 GPM
 Flo-jet Viton - 5 GPM
 Wilden Teflon - 4 GPM
 Graco Teflon - 10 GPM

CODE
 1
 2
 3
 4

OPERATING TYPE
 Manual Air Button
 110VAC Solenoid & Timer

CODE
 A
 D

CT _ _ **5**

Multiple Transfer Systems

ORDER ONE PER TRANSFER BANK

REGULATOR BASE ASSEMBLY

MT

ORDER PUMPS IN SEAL TYPE REQUIRED UP TO 8 PER TRANSFER BANK

PUMP SEAL TYPE

SANTOPRENE-5GPM **1A-MT**

VITON-5GPM **2A-MT**

For each pump, specify a pump type. Up to 8 pumps can be specified per MT system. If more than 8 pumps are needed, a second MT base assembly will be required.

EXAMPLE: For a 3 pump system with two Viton pumps and one Santoprene, the order would be as follows:

QTY	PART NUMBER
1	MT
2	2A-MT
1	1A-MT
