## SPECIFICATIONS

12 volt DC rechargeable battery

30 feet of 1/2 inch spray hose

3 to 5 gallon per minute flow

4 wheeled ergonomic design

25 gallon capacity

The portable unit operates using an electric pump. It comes complete with 30 feet of 1/2 inch discharge spray hose with a trigger gun and spray tip. The spray tip projects the liquid in a 25 degree flat spray pattern. It can be used to spray a variety of chemical products including: sanitizers, acids, caustics, and chlorine products.
