

# Hands-free hand sanitizer dispenser

Take a stand on disinfecting hands.

Our freestanding, foot-activated, stainless steel dispensing tower puts better hand sanitizing compliance within reach. Help promote good hand hygiene anywhere & everywhere, without the hassle of frequent refills or custom chemical packaging.

- Manual operation – no power source required
- Hands-free – activate with foot pedal
- Designed for low-viscosity alcohol based sanitizers
- Works with any chemical container and capacity
  - Use with bulk containers to save on cost, labor, and packaging waste
  - Includes chemical suction line with strainer
  - Includes mounting area for our 2.5 gallon chemical jug or our standard 1 gallon jug rack (available as optional accessories)
- Portable, freestanding station – simple to set up and move around
- Stainless-steel construction
- Three dispensing volume settings –
  - 0.03 oz (1 ml) per step – approx. 3780 dispenses per gallon (1000 dispenses per liter)
  - 0.08 oz (2.3 ml) per step – approx. 1640 dispenses per gallon (430 dispenses per liter)
  - 0.14 oz (4 ml) per step – for priming
- Leveling feet help maximize stability
- Integrated drip tray
